Hiring Manager
Nordic Apps AB
Stockholm, Sweden

Re: Frontend Developer (React) – remote

Dear Hiring Manager,

I am writing to express my interest in the Frontend Developer role at Nordic Apps. I have four years of commercial experience with React and TypeScript, and I am excited by your mission to make banking simple for everyone.

In my current role at FinTech Solutions, I develop a customer dashboard used by 120,000 users. I reduced page load time by 45% by introducing code splitting, and I regularly lead code reviews and mentor two junior developers. I enjoy working closely with designers and product owners to turn complex requirements into clean, accessible interfaces.

I have worked in an international, English-speaking Scrum team for the last two years, so I am comfortable with remote collaboration, daily stand-ups and clear written communication.

I would be happy to talk about how I could contribute to your product. Thank you for your time and consideration. I look forward to hearing from you.

Kind regards,
Piotr Nowak
